

16th International Congress on Antiphospholipid Antibodies

17 - 20 September 2019 | Manchester Central, UK

The International Congress on Antiphospholipid Antibodies is held every three years and, for the first time in 34 years, it is going to take place in the UK. This renowned global meeting provides an opportunity for scientists and doctors to set future priorities for APS research. Friday's patient sessions give you the opportunity to learn about the latest developments in APS and research and with our Questions & Answers session you can help shape the direction of future research
